

5th International Conference on Control & Signal Processing CSP 2017

28-30 October 2017 - Kairouan, Tunisia

Communication Engineering and Information Technology

The main objective of the session is to present, and provide an open forum for discussing, the current, latest advances, developments and applications in communication engineering and information technology and bring researcher and experts to discuss and share their studies, results, conclusion and experience. Topics of interest include, but are not limited to:

- *Electronic communication*
- *Simulation for communication system*
- *Communication Network Analysis in Smart Grid*
- *Microwave Engineering*
- *Education and information technology*
- *Health care information systems and technologies*
- *Information privacy and digital security*
- *Mathematical modelling and control system*
- *Neural networks and fuzzy logic*
- *Intelligent/Adaptive Systems*
- *Genetic algorithms and evolutionary computing*
- *Fault detection and isolation*
- *Signal and Image Processing*

Papers for the special session should be submitted as PDF attachment via email to one of the session organizers. Papers should be prepared following the template format of the conference

ORGANIZED BY :

Prof. Amer R. Zerek, Zawia University, Libya

anas_az94@yahoo.co.uk

Prof. , Mohamed M. M. Elfituri, Authority of Natural Science Research and Technology , Tripoli, Libya

melfituri@yahoo.com

Prof. Kenz A. Bozed, Benghazi University, Benghazi, Libya

treasure_libya@yahoo.co.uk

IMPORTANT DATES :

Submission Deadline:
March 05, 2017

Authors Notification:
March 30, 2017

Final Manuscript due:
April 04, 2017
